

FIPLOCK® ONE – One fits all

Excellence in state of the art cable protection

Unique benefits of our fitting system

- pre-assembled and ready to fit with FIPLOCK® corrugated conduits
- save and reliable connection
- re-opening possible – for safety reasons and vandalism protection only with a commercially available tool (screw driver)
- broad and versatile product range
- innovative and special solutions and products
- fast availability from stock for standard products
- highest mechanical strength (pull-out) and sustainable seal-tightness with ONE SystemCovers IP66 / IP67 / IP68 and also IP69 in ONE System
- 30 to 50% reduced management of part references required
- reduced failure mode at design-in stage as no evaluation regarding dry or wet location is required
- no installation failure probability with wrong parts for wrong application areas

FIPLOCK® ONE
